Work: 147 Bishop St., New Haven, CT 06511
Phone: 203-393-8775
email: kathryngwhite@mac.com

Kathryn grew up in the Chicago area and assumed she would be a Chicagoan for life, but as we know, the future is unpredictable. She majored in Philosophy at the University of Illinois in Urbana and intended to get a PhD in Philosophy, but thought it might be a good idea to work a bit and have some savings before graduate school. As a woman who has no respect for pre-requisites, she got a job in computer programming and worked a number of years in Information Technology for Sears. At some point, she realized that it was time to take her savings and use them for graduate school, or else get too attached to the view from her Sears Tower window. After meeting with then Clinical Program Director Al Burstein, Kathryn made the decision to apply and then attend the University of Tennessee Clinical Psychology program, where she received her PhD in 1991.

Since that time, she maintained a private practice in Knoxville, supervised PhD students in the Clinical Psychology Program for a number of years, and served on the boards and as president of the Appalachian Psychoanalytic Society and the Mental Health Association of Greater Knoxville. In 2008, Kathryn moved to Connecticut where she has a private practice in New Haven, and enjoys the warm friendship of a number of University of Tennessee graduates.
